

# PLUG PRODUCTION

Lawyer Nursery produces plugs of many species that are difficult to propagate by field sowing, or that are difficult to transplant as small bareroot seedlings. Using plugs provides a more reliable and consistent method. We offer high quality extracted plugs of the species listed on this page. For a reliable supply every year and better pricing, please inquire about contract growing of plugs by Lawyer Nursery.

Davidia involucrata plug germination.

Species	Size	No. Per Bundle	Unit Price		
			Bdl+	100+	500+
<b>BROADLEAF</b>					
Acer buergerinum (Trident Maple)	very large plug	10	1.88	1.36	.94

Pinus mugo pumilio plugs.

**P-0 Plug Sizes**

Small Plug = 2.0-4.9 cubic inches  
 Medium Plug = 5.5-7.5 cubic inches  
 Large Plug = 7.5-15.0 cubic inches  
 Very Large Plug = 15.0-30.0 cubic inches

At Lawyer Nursery we seek to grow the plant with the right size growing container. Our plug sizing reflects the container volume not the container manufacturer.
